

## Articulation Agreement

Post University and State University of New York Orange

Post University and State University of New York Orange, hereafter referred to as “partnering institutions,” agree to cooperate in correlation with their respective academic programs to facilitate the transfer of students with the following associate degree to Post University to pursue a baccalaureate degree.

State University of New York Orange	Post University
AS Accounting	BS Accounting
AAS Accounting	BS Accounting
AS Business Administration	BS Business Administration
AAS Business Management	BS Business Administration
AAS Business Management	AS Management

In recognition of this objective, both institutions officially confirm the following terms of agreement:

### **Purpose**

This agreement aims to coordinate cooperating institutions' academic programs to encourage partnering institution students to pursue a baccalaureate degree at Post University as matched above.

### **Terms and Conditions**

- A representative from each institution (Post University and partnering institution) will be responsible for monitoring the operation of this agreement. These representatives will be appointed by their respective presidents.
- Post University and partnering institution will inform the public and interested students in the transfer opportunity created by this articulation agreement by posting it on their website and at transfer fairs.

### **Student Qualifications and Responsibilities**

- To be eligible for the articulation described in this agreement, the student must complete the required coursework and graduate from a partnering institution with one of the articulated associate degrees listed in the chart above within four years of the curriculum year stated in this agreement.
- Post University guarantees acceptance of individual students in good standing, as stated on the transcript from the partnering institution (both academic and disciplinary), who complete the coursework required to earn one of the articulated associate degrees listed in the chart above from the partnering institution.

- If a student wishes to transfer any course outside of those articulated explicitly in this agreement from a partnering institution or another school, the earned grade must be equal to C or better in the course. The student must provide Post University with an Official Transcript from each school from which they are looking to transfer credit.
- The student will be solely responsible for meeting the admission requirements to and continued matriculation at Post University.

### **Post University's Responsibilities**

- Post University will accept partnering institution credits, as defined in Addendum A, to apply toward the requirements of a Post University baccalaureate degree. (A grade of 'D' or better will be accepted for coursework required as part of an articulated partnering institution associate degree.) Post University is not required to accept transfer credits for course substitutions that deviate from the prescribed partnering institution curriculum.
- Credits not earned at partnering institutions will be accepted subject to the Post University transfer credit policies.
- All transfer credits from partnering institution will be applied to a student's program at Post University under the structure of course classification at Post University
- Partnering institution will advise students at partnering institution of classes to be followed for transfer to Post University. Post University will review partnering institution courses regularly to assess transferability.
- Post University will waive the CTC101 College Success Seminar if the student has earned an associate degree from a partnering institution within the last 4 years.
- Students from partnering institutions who enroll in Post University's online programs through this articulation agreement will receive a 20% tuition reduction for online courses. Students enrolling in Post University's Main Campus programs may be eligible for scholarships, with additional detail provided here: <https://post.edu/financial-aid/scholarships/>.
- Upon transfer to Post University from a partnering institution, the student will observe the curriculum regulations and policies during formal admission. Students must earn at least 30 upper-level (300–and 400-level courses) credit hours for graduation. Partnering institutions, 200-level courses directly transferred in as 300-level count towards this requirement.
- Post University will advise incoming students from partnering institutions to ensure that baccalaureate program requirements are completed.
- Post University will review the articulation equivalencies for all articulated programs annually and contact the partnering institution in writing to confirm any updates or changes.

### **Partnering Institution Responsibilities**

- For this articulation to remain valid, the partnering institution agrees to notify Post University in writing if course content or curriculum for programs articulated herein is changed to affect prerequisite courses or would impact this articulation and its provisions. This notification can be detailed and program-specific or as simple as providing the web link to an updated Academic Catalog upon publication annually.
- Partnering institution will advise its students of the coursework and schedule to be followed to ensure transfer to Post University under the terms of this articulation.
- Partnering institutions will inform interested students of the transfer opportunity created by this articulation agreement and support students in the transfer process.

### **Brand Control Points**

Post University and partnering institution can cobrand or market this articulation agreement on their respective websites and published materials.

Both parties acknowledge that when cobranding or marketing this partnership, each party may use the name and/or logo of the other party. Each party agrees to only use the other party's name and/or logo in ways preapproved in writing (email is acceptable) and with the same level of care with which it uses its name and logo. Approval by either party will not be unreasonably withheld.

Both parties agree to use the other University's name only in a positive light and will refrain from disparaging the other in any way.

### **Relationship of Parties**

This MOU is intended to constitute a contract for the express purposes described herein and is not intended to be construed as or to create a partnership or joint venture between partnering institution and Post University. Neither party shall be authorized to bind or commit the other party to any contract, agreement, or other obligation. The relationship is not exclusive and in no way limits either party's ability to enter into agreements with other entities.

### **Duration**

Post University and partnering institutions will review this agreement annually and make adjustments or amendments when necessary to improve transfer procedures and program articulation.

### **Financial Structure**

Post University and the partnering institution agree that there shall be no charges between the parties concerning the services and responsibilities each undertakes to provide under this articulation agreement.

---

Dr. Jeremi Bauer, DBA  
Chief Academic Officer  
**Post University**

---

Dr. Erika Hackman  
Vice President for Academic Affairs  
**State University of New York Orange**

Articulation Agreement Course Equivalencies  
2022-2023

These equivalencies are based on the 2022-2023 University Catalogs prescribed program for both Post University and the partnering institution. Any variance from what is prescribed in the curriculum found in the catalog may result in fewer credits being accepted by Post University.

<b>Total Credits</b>	63	<b>Total Credits</b>	57-60

\*MGT 221 Entrepreneurship, Creativity & Innovation is required for the Post University BS Management degree. Students transferring to MGT220 from the State University of New York Orange will receive three credits for the class and will still need to take MGT 221 Entrepreneurship, Creativity & Innovation at Post University.

\*\*These Math Courses are recommended and will be the student's Math Requirement at Post University. If students take a Liberal Arts Elective or Lower Math Course instead of the courses noted above, they may not get credit causing only 57 credits to transfer into Post University instead of 60 credits.
