

MASTER OF SCIENCE IN CLINICAL MENTAL HEALTH COUNSELING

MAKE AN IMPACT FOR MENTAL HEALTH WITH A GRADUATE DEGREE FROM POST UNIVERSITY!

The Master of Science in Clinical Mental Health Counseling covers the professional skills used in the field of clinical mental health counseling while offering opportunities to explore personal wellness and strengths. With the insights and skills this program has to offer, you could build a foundation of counseling abilities to constructively serve individuals and entire communities.

MASTER OF SCIENCE IN CLINICAL MENTAL HEALTH COUNSELING ONLINE ONLY

This graduate degree program covers the counseling knowledge, theory, and techniques used to help others cope with a wide range of mental health issues. The curriculum examines evidence-based models of prevention, consultation, intervention, and education as well as the interaction of human systems – individual, interpersonal, group, family, organizational, community, and societal. Your program is designed to help you develop an understanding of issues and trends related to a multicultural and diverse society. It also provides opportunities to build the communication, critical thinking, and decision-making skills that could make a difference in professional and personal settings.

Disclaimer: While the Master of Science in Clinical Mental Health Counseling is not designed to fulfill licensure requirements in an individual state, it may be used to partially fulfill those requirements. You are responsible for ensuring all requirements are met for any relevant licensures or certifications.
