

FORENSIC ACCOUNTING

PURSUE YOUR CERTIFICATE IN FORENSIC ACCOUNTING AT POST UNIVERSITY

Our Certificate in Forensic Accounting program was designed for accountants, CPAs, CMAs, and accounting majors who have a desire to enhance their skills in this area. The learning experiences offered in the program are designed to help you develop skills for applying the accounting methods and financial techniques often used to uncover, solve, and document financial crimes while following the prescribed criminal investigation procedures of relevant law enforcement agencies.

Certificate in Forensic Accounting *Offered online and on campus*

In this focused certificate program, you will have the opportunity to enhance your skills in forensic accounting. The curriculum for the 18-credit-hour certificate program offers a combination of accounting and criminal justice classes that review real-world case studies to explore fraud prevention, detection, deterrence, and investigation. Upon successful completion of the program, you will have had the opportunity to build the foundational forensic accounting skills you could use to uncover, solve, and document financial crimes.

Disclaimer: This program may be used to partially fulfill Certified Public Accountant (CPA) education requirements. The program is not designed, however, to fulfill CPA education requirements in any specific or individual state.
