

MASTER OF EDUCATION

PURSUE BETTER LEARNING OUTCOMES FOR YOU AND YOUR STUDENTS!

Your Master of Science in Education from Post University is designed to give you the opportunity to develop the tools and gain the insights you could use to improve learning aptitude and performance throughout your education career. Your program covers a wide range of topics in the field, from exploring the technologies and innovations that impact learning outcomes to building the critical thinking, forecasting, and analytical skills used to lead educational efforts in schools, districts, and businesses or professional organizations.

MASTER OF EDUCATION OFFERED ONLINE.

This graduate degree program offers the opportunity to look at emerging training technologies, identify instructional challenges, develop practical solutions, and build the next-level skills you could use to promote learning success. The core curriculum for this 30-credit-hour program covers the future of education, measurement and metrics, digitally mediated teaching, and a capstone. In addition to core educational insights, this program also offers the opportunity to customize your graduate education to your future goals with your choice of one of these five concentration options:

- > Curriculum and Instruction
- > Educational Technology
- > Learning Design and Technology
- > Online Teaching
- > Teaching English to Speakers of Other Languages (TESOL)

Disclaimer: The Master of Education degree is not designed to fulfill the educational requirements for any educational credential, such as a state teacher's license or TESOL certification.
