

POST UNIVERSITY DIGITAL CREDENTIALS

BHMT-APPROVED SKILL BUILDING

ADVANCE YOUR CAREER with DIGITAL CREDENTIALS

Take your career to the next level, one digital credential at a time. Post University gives registered nurses and other healthcare professionals the ability to quickly learn a skill and demonstrate mastery of that skill. Combined with a traditional university degree, these advanced digital credential opportunities could be a powerful way to show others your passion for continually updating your knowledge and skills.

Each digital credential is earned by completing a specific 3-credit-hour online course. Upon completion of the course, you will receive a **Digital Badge and Certificate of Completion**. You can share your badge directly to LinkedIn, Facebook, embedded in a digital resume, or as part of your email signature.

To be eligible to take a single course or digital credential, the applicant must have a bachelor's degree in a healthcare-related field (public health, nursing, dietetics, microbiology, etc.) with a minimum GPA of 3.0 on a 4.0 scale, as shown on the applicant's college transcript.

Build on your professional skills with these BHMT-approved digital credentials:

ADVANCED PHARMACOLOGY

The Advanced Pharmacology digital credential focuses on the theoretical background and principles of the pharmacokinetics, pharmacodynamics, and pharmacotherapeutics of drugs and natural products commonly used in the advanced practice nurse's management of acute and chronic illnesses. Earned upon completion of our 3-credit-hour Advanced Pharmacology course.

ADVANCED PATHOPHYSIOLOGY

The Advanced Pathophysiology digital credential emphasizes concepts from the biological sciences and nursing science in an examination of pathophysiologic principles and common pathological conditions. Earned upon completion of our 3-credit-hour Advanced Pathophysiology course.

ADVANCED PHYSICAL ASSESSMENT

The Advanced Physical Assessment digital credential uses a comprehensive health promotion, disease prevention, and health restoration model to focus on the culturally competent, advanced comprehensive assessment of clients across the lifespan, including effective data collection and documentation. Earned upon completion of our 3-credit-hour Advanced Physical Assessment course.

INFECTION PREVENTION AND CONTROL

The IPC digital credential explores the roles and responsibilities of the infection prevention and control professional. Earned upon completion of our 3-credit-hour Infection Prevention and Control course.

More Digital Credentials on next page.
