ASSOCIATE OF SCIENCE IN ACCOUNTING

PURUSE YOUR ACCOUNTING DEGREE ONLINE OR ON CAMPUS AT POST!

The Associate of Science in Accounting from Post University offers an introduction to the concepts and principles of accounting that could help you develop the skills and insights needed to pursue opportunities in the field. This associate degree program is designed to provide learning experiences to help you build the skills you could use to organize accounting information, interpret financial records, prepare financial statements, and more.

Post's AS in Accounting is programmatically accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

Associate of Science in Accounting

Offered online and on campus

In addition to accounting theory and principles, this program also explores business fundamentals to provide context for how the field of accounting helps support and inform the financial planning and decision-making of an organization. The core curriculum for your 60-credit-hour program covers financial accounting, macroeconomics, finance, managerial accounting, spreadsheet, and general ledger software, and more. Upon graduation, you could use what you have learned to pursue opportunities in the field, or pivot and apply your associate degree credit hours to pursue your Bachelor of Science in Accounting at Post University.

Disclaimer: The Associate of Science in Accounting degree may be used to partially fulfill Certified Public Accountant (CPA) education requirements. The program is not designed, however, to fulfill CPA education requirements in any specific or individual state.
