BACHELOR OF SCIENCE IN ACCOUNTING

CRUNCH THE NUMBERS WITH A DEGREE FROM POST UNIVERSITY!

The Bachelor of Science in Accounting from Post University could help you develop the insights and skills you could use to pursue a future in accounting. In this program, you will have the opportunity to build or hone skills in accounting, auditing, financial examining, tax examining, and more!

Post's BS in Accounting is programmatically accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

Bachelor of Science in Accounting

Offered online and on campus

In this 120-credit-hour degree program, you will have the opportunity to explore the essentials of the accounting field. The curriculum blends core business coursework with practical accounting principles to help provide an understanding of how accounting impacts the overall success of a business or organization. Coursework covers financial accounting, finance, managerial accounting, data analytics, income taxes, auditing, and more. In addition to interpreting tax law, applying auditing techniques, and preparing financial statements, classes also cover professional skills like communication and ethical decision-making that transcend business units.

Interested in an MS in Accounting? After three years in the program, you may also have the option to transition your studies into a combined bachelor's and master's accounting program to complete both degrees together in just five years!
