Campus Hazing Transparency Report

Post University adheres to both the federal Stop Campus Hazing Act and the Connecticut General Statutes § 53-23a by establishing procedures for reporting and disclosing hazing incidents. These complementary pieces of legislation at both the federal and state levels underscore a commitment to transparency, prevention, and student safety in our campus community.

Reporting Hazing
Post University asks all students and employees who witness, learn of, or hear about hazing to contact Campus Security or the Office of Campus Life and report what happened and where it happened; you may identify the victim or keep the victim's identity confidential at their request.

If you think you have observed concerning behavior that may constitute hazing, please report it immediately.

If the victim is injured or unconscious, call 911.
