RN TO BSN PROGRAM

The RN to BSN program is designed to help registered nurses pursue the skills needed to make a difference for patients as well as their own futures in nursing. The program is offered through two learning modalities: Term Based and *SIM*Path® (Competency Based).

Term Based:

- Structured 8-week terms
- Consistent assignment due dates
- Weekly instructor interactions
- Take 1 or 2 courses at a time

***SIM*Path®:**

- 16-week semesters
- Self-paced format
- Complete as many courses as you can during the 16-week semesters*

Note: Students cannot take their capstone course in their first semester. A minimum of two semesters (or one semester and one term) are needed to complete the program.

***Start with two courses. Add in more as your schedule allows. You can register for additional courses up to the 13th week. Unfinished courses will need to be repeated.**

Early Admission to the RN to BSN Program

With Post's Early Admission Program, you could start the Term Based BSN program before passing the NCLEX-RN.

CREDIT TRANSFER POLICY

You could be closer to a degree than you think. Your RN license plus an ASN or ADN could be considered for up to 90 transfer credit hours toward your degree.

PROGRAM COST

BHMT tuition reductions are available.

RN TO BSN/MSN PROGRAM

The RN to BSN/MSN program is designed to give registered nurses an opportunity to earn an MSN degree and be awarded a BSN along the way. You will complete fewer courses than students who earn these degrees separately, saving you time and money. The RN to BSN/MSN is available in both learning modalities: Term Based and *SIM*Path® (Competency Based).

Undergraduate Nursing Courses:

- Reflective Practice, Issues, and Trends
- Healthcare Delivery and Quality Outcomes
- Leadership and Strategic Planning
- Community Health Nursing
- Developing Nursing Practice
- Health Assessment
- Case Management

Undergraduate management, research, and capstone courses are replaced by the graduate equivalents.

Graduate Nursing Courses:

- MSN Role Development
- Theoretical Foundations
- Research Design

BSN Degree Awarded

- Policy Advocacy & Healthcare Ethics
- Integrated Advanced Pathopharmacology
- Advanced Health Assessment

MSN Specializations

After completing the BSN and MSN core courses, students will complete their final six courses in a chosen specialization:

- Management and Organizational Leadership
- Nursing Education
- Nursing Informatics
- Infection Prevention and Control
- Case Management

The curriculum displayed on this flyer, while subject to change without notice, is current as of July 2026.
